

DN05101/D

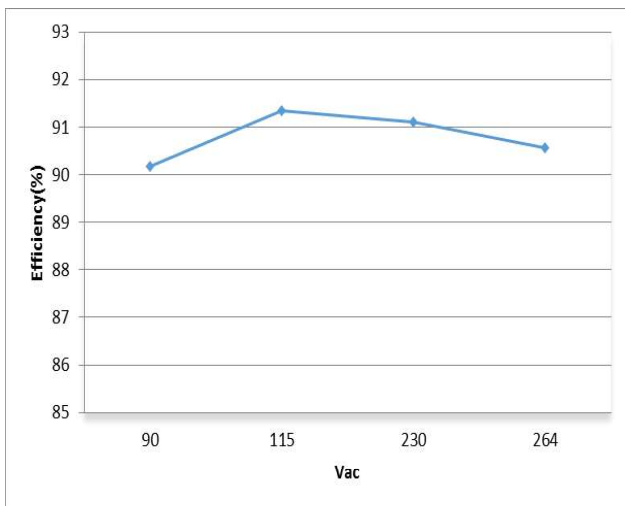

Standby Power at 5V Output (Cable unplug) @ 90 Vac to 264 Vac Input

Test condition: all efficiency are tested at board end

Average Efficiency at 5V Output @ 90 Vac to 264 Vac Input

Test condition: all efficiency are tested at board end

Efficiency Load Curve at 5V Output @ 90 Vac to 264 Vac Input

Test condition: all efficiency are tested at board end
